Aspiring Full Stack Developer with expertise in C++, Java, Python, SQL, HTML, CSS. Strong problem-solving skills and a passion for developing innovative and impactful software solutions. Seeking an opportunity to apply my technical skills in software development and web technologies.

PROFESSIONAL EXPERIENCE

Internship – Shree Computers **Duration: 6 Weeks**

- Assisted in troubleshooting hardware and software issues, resolving client technical problems.
- Gained hands-on experience in system maintenance and provided direct customer support.
- Worked on basic network setup and system configuration tasks, improving network

Internship – Empower You **Duration: June 2025 – December 2025**

- Working as a Java Developer intern, contributing to the development and maintenance of core application modules.
- Assisting in writing clean, efficient, and well-documented Java code following object-oriented principles.
- Collaborating with senior developers to implement backend functionalities and integrate APIs.
- Gaining practical experience in debugging, testing, and optimizing Java-based applications.
- Enhancing technical skills through real-world projects and team-based development workflows.

EDUCATION

- **B.Tech in Computer Engineering** 2023 - 2026
  G.H. Raisoni College of Engineering and Management, Wagholi | CGPA: 8.45(7th sem)
- **Diploma in Computer Engineering** 2021 – 2023
  Government Polytechnic, Ratnagiri |Percentage: 86.51%
- **10th Grade (SSC)** 2015 – 2020
  Janana Prabodhini Navanagar Vidyalaya, Nigdi, Pune | Percentage:86.20%

PROJECTS

- VoltNexus (Enterprise Electricity Billing System) Developed a secure billing platform using JavaScript, Tailwind CSS, and Supabase, featuring Row Level Security (RLS) and distinct portals for admins and customers.
- Designed and implemented a Biometric Attendance Management System (Capstone Project) using HTML,CSS,javascript for web interface & SQL database for storing attendance data integrating fingerprint authentication for secure access control.
- **AI-Enabled Examination System** Developed a secure, AI-integrated testing platform featuring automated proctoring and behavioral analysis to monitor candidates and ensure assessment integrity in real-time.
- **Personal Portfolio Website** Designed a high-performance, responsive portfolio using **React.js**, utilizing a modular component architecture to showcase technical projects.

CERTIFICATES

- Getting Started with Enterprise Data Science – IBM
- Machine Learning for Data Science Projects – IBM
- Artificial Intelligence Fundamentals – IBM
- Getting Started with Enterprise-grade AI-IBM

SKILLS

- **Programming Languages**: C++, Java
- **Web Technologies**: HTML, CSS, PHP
- **Databases**: SQL , Supabase
- **Developer Tools**: Apache, XAMPP, JDBC, Git, VS Code, IntelliJ
- **Libraries**: Pandas, NumPy, Matplotlib
- **Other Skills**: Object oriented programming, Computer networks, Operating systems

HOBBIES

Photography, Listening to Music, Gaming, Writing Poems
